

 CCA Meeting Notice

Transportation, Infrastructure & Energy Committee

LADWP Energy Savings Incentives

Join us to learn about the Los Angeles Department of Water and Power's (LADWP) plans to reduce energy use this summer in order to prevent rolling blackouts. LADWP has energy efficiency incentives and rebates available to property owners. Learn more about these programs and how you can cut your energy costs and usage to help prevent these blackouts.

**Special Guests: Alex Brown and Neil Guglielmo, LADWP
Hyperloop Transportation Technologies**

The Hyperloop Transportation System is an entirely new mode of transport that its backers say will revolutionize travel by connecting people and goods through a vacuum tube that will send pods as fast as the speed of sound. This could cut travel time from L.A. to San Francisco to under an hour. Learn more about the Hyperloop systems, their feasibility, costs and when we may see the first system deployed.

Special Guest: Lan Saadatnejadi, Hyperloop Transportation Technologies

(Open to Executive, Business Advocacy and Premier Level Members Only)

Please RSVP by July 13, 2016

**Thursday
July 14, 2016
